Transforming into Greater Heights

As we never stop striving to create a legacy of improved business, we keep moving forward with more transformation as a strategic that we have implemented since 2015. With over four decades of experience in retail industry under our belt, entering 2018 was a propitious step for us to build wider space where people from various walks of life,

especially the millennial generation, can enjoy what today's lifestyle trend has to offer.

Our giant leap to enhance our transformation is by opening a number of outlets with completely different concept from the traditional concept of our existing outlets. The concept led to the birth of Ramayana Prime that offers not only fashion retail but also lifestyle products.

With the opening of Ramayana Prime, furthermore, not only do we offer fashion retail in our distinct department stores, but also we feature a remarkable range of lifestyle products and services.

further inside you will see more lifestyle products and services carrying branded names, including entertainment venues such as Kids Zone and XXI cinema.

Ramayana Prime City Plaza Jatinegara is one example where you can see how such a transformation has taken us to scale greater heights. As we keep climbing higher, we have added 3 (three) Ramayana Prime outlets during 2018, which are in Plaza Cibubur, Sleman, and Madiun. We also prepared other Ramayana Prime that will soon open their doors to the public.

In addition to featuring the modern outlet concept, Ramayana has also penetrated e-commerce platforms such as Lazada, Tokopedia, and Shopee.

Stepping into a Ramayana Prime is where you will be greeted with a delicious array of F&B outlets, and you walk

Growing with the Millennials

OUR VALUES

We have built a presence in the world of fashion retail for over four decades. Indeed, such a long journey has built our reputation with good name. No less important is our long-established relationship with suppliers, employees and investors. As a means of appreciation loyalty to customers, we include transformation as one of the values that allow us to give what the customers need, not only in the fashion retail segment but also other products and services that set the current lifestyle trends.

OUR VISION

“To be seen as the mass market solution in terms of fashion merchandising”.

OUR MISSION

“To present an appealing and entertaining lifestyle shopping experience, guaranteeing good quality, great style, and affordable price”.

Highlights of the Year

Commendable Achievement

The Company booked a 44% growth rate of net profit from the sale performance result.

Hip and Happening

Ramayana K-Pop Dance Cover Competition 2018 - a fun day where Ramayana invited youths including millennial generation to take part in a joyful event that gave way to a festive mood.

Number 1 on YouTube

Google Indonesia placed Ramayana on the top among the ten most popular ads on YouTube. The Ramadhan Ramayana: #KerenLahirBatin has had over 16 million viewers with 11,000 comments.

Member Card

The launch of Ramayana Member Card App, a great platform to find out the newest products and attracting discounts and promos available at all Ramayana merchants. The total membership of card members as of the end of 2018 numbered to 5,536,963 users.

Ramayana on Shopee

Online shoppers welcomed Ramayana, which has collaborated with online shopping platform Shopee since April 2018. In celebrating the collaboration, Ramayana offered up to 80% discount for fashion enthusiasts seeking the best buy at the Ramayana Official Shop on Shopee, from April 26-May 2, 2018.

Achieving Tremendous Growth

Double-digit growth in fashion business and rationalization in supermarket, resulting an increase in net profit at 44%.

40 Years and Counting

In commemorating its 40th Anniversary, Ramayana held a big celebration at Trans Studio Bandung on March 6, 2018. The event saw the attendance of around 2,000 invitees from Ramayana's big family.

New Face

Ramayana named the renowned actress Nagita Slavina as the Company's new ambassador. With her presence, Ramayana launched the exclusive collection called Chapter9, available only on Shopee online store.

Cashless Convenience

Ramayana has collaborated with e-wallet DANA, an e-money platform that facilitates the payment convenience. Making purchase in every Ramayana store now gets easier with e-wallet DANA.

Board of Commissioners Report

Dear Shareholders,

With this occasion, I would like to extend the warm wishes and earnest greetings to all Ramayana associates, including shareholders, bankers, suppliers, employees and of course our faithful customers. Despite being seen as the start of 'political years' in Indonesia, which raised concerns about the continued stability, 2018 is also perceived as the transformation year which opened opportunities for retail industry to catch up with the current trend. With this spirit, please allow the Board of Commissioners to convey Ramayana growth in this Annual Report for the fiscal year 2018.

The Invest ASEAN Digital Report has stated that the economy is currently worth US\$900 billion per annum. By 2030, Indonesia is expected to account for nearly 40% of the growth among Southeast Asian countries. The maturing Indonesian economy also helps strengthen the country's position as Southeast Asia's largest market. Indonesia's gross national income per capita has increased over 500% in a 17-year-period. This means seeing stronger purchasing power, especially among millennial generation.

With continuous developments happening in the country, the Company also observes the revival of consumer spending. Throughout Indonesia, especially in Java, new network of toll roads is being built and new ways of transportation such as the Jakarta MRT that is already available to the public. Ramayana also benefits from more affordable and more efficient infrastructure.

Upgrading Market with Online Trend

With our presence in the fashion retail industry for over four decades, the

Company has taken a step forward to embrace the new shopping experience, attuning to the dynamic millennials. Our transformation, which we started in 2015, has also pay off. Especially in 2018, we were really on the fast track with better growth and wider market penetration.

The opening of Ramayana Prime in City Plaza Jatinegara marked the enactment of "Unique Fashion Solution" for the mass-market in Indonesia. Ramayana Prime is not only about department stores boasting fashion retail, but also bringing noteworthy assortment of lifestyle products and services such as F&B outlets and entertainment venues.

Through the implementation of a better category management in all Ramayana outlets, the Company succeeded in achieving sales growth target (top line) which increased by 20-25%.

So far, we have four Ramayana Primes across the Java Island, and we, the Board of Commissioners, have seen the commendable achievements of what the Board of Directors has done in terms of innovating the new concept to capture wider market.

Currently, Ramayana operates 119 stores in 54 major cities across Indonesia with total gross selling space of 994,441 square meters. For transformation outlets, there are 25 outlets operating as of December 2018, and in 2019 is targeted as many as 20 outlets will be transformed.

Well-educated citizens also tend to be better consumers, understanding the trade off between quality and price. In this internet age, the Company has discovered the younger, tech-savvy consumers to be vastly concerned

with health, style, fashion and other features compared to the generation of their parents. It is deemed necessary for the Company to pursue a strategy to align with this society transformation. It is only fitting for the Company to also seek collaboration with e-commerce platforms to join today's innovative shopping industry.

These transformation efforts are proven to be rewarding as several achievements in e-commerce and digital industries are presented to Ramayana in 2018. In May 2018, The Ramadhan Ramayana: *#KerenLahirBatin* ad was honored by YouTube Ads Leaderboard Awards. The ad has had over 16 million viewers with 11,000 comments on YouTube. In its first year joining the e-commerce business, Ramayana had been presented with Special Partner Brand Award 2018 by Shopee Indonesia.

Another Rewarding Year for Shareholders

Just like in the previous years, the Board of Commissioners always discusses with the Board of Directors in appraising costs and dealing effectively with under-performing assets, in maintaining a stance of prudence in line with ongoing economic trends, both domestic and global. The Board of Commissioners has advised the Board of Directors to stay on track with the transformation as an engine that drives the Company.

The results were notable in 2018. The Company total Sales in 2018 stood at Rp 8,539 billion, up from Rp 8,146 billion recorded for the same period in 2017. The Company overall sales growth reached 4.8% while sale performance result booked a 44% growth rate of net profit. The

The Company total Sales in 2018 stood at Rp 8,539 billion, up from Rp 8,146 billion recorded for the same period in 2017.

Paulus Tumewu
President Commissioner

Company also booked an increase of 13.3% in gross profit at Rp 2,507 billion, compared to Rp 2,212 billion booked in the previous year.

Based on the record of the Company's successful achievements, the Board of Commissioners would like to recognize the achievements of the Board of Directors and thank them for their commendable endeavor and for their implementation of policy as determined by the Board of Commissioners. The Directors have performed exceptionally, under untried conditions, adapting to changing tastes and market patterns.

In light of transforming the business into greater heights, the Board of Commissioners looks forward with anticipation to the expansion and modernization

of supermarket facilities in all stores, as well as growing e-commerce retail stores. The Company intends to maintain both offline and online presence in Indonesia's retail industry because despite the growing familiarity of online shopping convenience, many customers still actually consider visiting a physical store to be an irreplaceable activity.

At this point I would like to turn over the forum to the President Director for his report, while sending sincere thank you for valued shareholders, honorable partners, employees and customers across Indonesia. Let us work together in 2019 to make another satisfactory year for PT Ramayana Lestari Sentosa Tbk.

Paulus Tumewu
President Commissioner

Board of Directors Report

For over four decades, Ramayana has incessantly strived to create a legacy in retail industry. Ramayana was comfortable for many years as a reliable, trustworthy, cost-conscious source of durable, inexpensive garments and other daily needs. Last year, we strengthened our transformation to present an appealing and entertaining lifestyle shopping experience both for our valued customers as well as the growing millennial market. The year 2018 was a journey for Ramayana, and in this Annual Report, we convey the story to shareholders, relevant government authorities, all stakeholders and the general public.

With the raising of middle class and strengthening people's purchasing power, Ramayana revised its relationship with today's shopping public through customer service. That means taking a step forward to reach out to younger customer base through online shopping experience and premium retails.

Shopping as a Fresh Lifestyle Experience

Expanding its market to a new target customer group, Ramayana created two notable milestones in 2018. The first and considering the Company's breakthrough was upgrading the offline retail market through Ramayana Prime concept. For most of the public, Ramayana is best-known for its C to D market or middle-low segment. The Company saw this as a challenge to entice the young and modern market who favors more fashionable and attractive shopping areas. This demand triggered the birth of Ramayana Prime in Jatinegara, a 25,906 sqm lifestyle center built on

1.1 hectares of land in East Jakarta. On top of fashion retail, customers may visit food outlets, specialty stores as well as cinema and game center.

As of 2018, we have had four Ramayana Primes, including the one in Jatinegara. The others are in Plaza Cibubur, Sleman City Hall, and Plaza Lawu Madiun. We are targeting to open five stores every year. This includes expanding more Ramayana Primes in our business development plan, be it by revamping our existing stores or by renting other places.

With our presence in a lifestyle destination, we also generate rental income, which we earn from tenants including anchor tenants in Ramayana Primes.

Aside from this, we have also entered the online retail market through e-commerce like Shopee, Tokopedia and Lazada. Tapping into the millennials with large discount and official products, Ramayana also tag along with modern-day celebrities like Nagita Slavina to craft exclusive fashion collections.

Moreover, the Company view modern trend through activities as well, hosting Ramayana K-Pop Dance Cover Competition 2018, a fun day where Ramayana invited youths including millennial generation to take part in a joyful event. This will be the look of Ramayana in the future.

The launch of Ramayana Member Card App marked another milestone for the Company. This counts as a step forward from the existing loyalty program through physical debit card introduced in the

previous year. This new program has received a warm welcome from our customers. Acknowledging the familiarity of today's consumer with e-payment method, Ramayana has also collaborated with e-wallet DANA for a more convenient yet secure payment.

Reaching Out with Corporate Social Responsibility

Ramayana opened their first store in 1978 on Jalan Sabang, Jakarta. Later, Ramayana grew with more stores opened across Indonesia and has become one of the largest department store operators in Indonesia. Ramayana has shared its history with Indonesia and will always give back to those in need.

To maintain our business sustainability, we carry out the essence of the triple bottom concept (Profit, Planet, People); taking into account that Ramayana operates 119 stores in 54 major cities across Indonesia including those affected with recent natural disaster such as Lampung and Banten.

The Company always feels the obligation to respond to natural disasters. In August, the Company distributed donations valued at nearly Rp 600 million to the victims of earthquake in Lombok, West Nusa Tenggara. Another aid, valued at Rp 1,171,266,592 was sent to the victims of Palu and Dongala earthquake and tsunami in October. The Rp 200 million donation for the community development was channeled to help communities in Anyer and Lampung. Lastly, the Company also collaborated with 13 Buddhist Viharas in Cikarang and Karawang area to provide free

Agus Makmur
President Director

medical treatment at Sariputra school, Cikarang, on September 2, 2018 with total fund of Rp 961,431,300.-

Ramayana always looks into the neighborhood for employment and realizes that our neighbors provide us with sincere, hard-working workforces. We continue to work and share with local people in areas around our outlets, to demonstrate how we are a socially-conscious, caring and valuable member of the Indonesian business community.

Reporting Another Satisfactory Year

Let us, the Board of Directors, reports that operating income for 2018 reached Rp 606.9 billion from Rp 376.8 billion in the previous year. While as of December 31, 2018, total assets stood at Rp 5,243 billion, an increase as compared to Rp 4,892 billion booked in the previous year.

The Board of Directors would like to report to the Board of Commissioners that we have been able to implement all assigned corporate and departmental strategies,

as well as monitoring execution of directives, ensuring that the Company is fully compliant with corporate governance regulations.

On behalf of the Board of Directors, I would like to emphasize that PT Ramayana Lestari Sentosa, Tbk did its best in a difficult environment, striving for improved outcomes in 2019.

We wish to extend our appreciation to our esteemed Board of Commissioners for its wise guidance throughout the year. We also would like to thank all stakeholders, shareholders, management, employees and business partners, and valued customers for their continued patience and faithful support during the year.

It is important to bear in mind that the effort at a 'business transformation' is a long-term strategy. We will pursuit more accomplishment in 2019, expanding Ramayana with optimism.

Agus Makmur
President Director

Ramayana in a Nutshell

Indonesia. With the strong human resources as well as sound financial management, Ramayana survived the economic crisis that hit the country hard in 1998.

Dubbed one of the largest department store operators in Indonesia, Ramayana opened their first store in 1978 on Jalan Sabang, Jakarta. Named Ramayana Fashion Store, the store mainly specialized in garment and clothing, focusing on selling quality goods at affordable price for the low-income segment.

In 1985, Ramayana introduced fashion apparels such as shoes, handbags and accessories while expanding the business in wider markets, not only in Jakarta but also Bandung.

Ramayana has since 1985 become a retail chain, operating 13 outlets and employing a total of 2,500 workers. They variety of products sold has also become more varied, which include household necessities, toys and stationeries.

Later, Ramayana grew with more stores opened across Indonesia and has become one of the largest department store operators in

Indeed, the Company, which has listed its shares on the Indonesia Stock Exchange since 1996 has ever since continued to record strong growth and become the market leader in the middle-low and lower retail segments.

Seeing people's life and digital technology are intertwined, Ramayana in 2018 expanded its business with the collaboration of renowned e-commerce platforms: Lazada, Tokopedia and Shopee. Despite the growing number of netizens making the most of the online shopping convenience, we still see physical store remains as a fun activity with irreplaceable shopping enjoyment that enhances the art of shopping spree. For that reason, while we are penetrating the e-commerce market, we maintain and even improve the presence of our stores throughout the country.

Currently, Ramayana operates 119 stores in 54 major cities across Indonesia with total gross selling space of 994,441 square meters. For years, Ramayana offers full range of clothing, shoes and bag, toys and stationery, as well as housewares and supermarket. With the transformation as a giant leap, Ramayana has branched out its presence in the market with the opening of

Ramayana Prime, which boasts a complete range of lifestyle products including department stores and the spaces rented to anchor tenants carrying branded names.

Ramayana Logistic Map

Human Capital

The Company sees human resources as a crucial element of the Company's performance growth. They indeed constitute of one of the great assets that drive the Company forward. As of the end of 2018, Ramayana had 9,488 employees, a decrease compared to 2017 with 10,171.

The transformation step is not only applied to the store but also to all employees both in terms of responsibility and capability. To make

the most of its human resources, the Company continuously maintains the quality of every employee by means of enhancing their knowledge and honing their skills through various training sessions.

Training

We always develop our training system in line with the goals of our transformation, which is to prepare our people to be able to contribute more to penetrate more markets across the archipelago. We routinely conduct training once a month in every store and five times in a year at the head office.

Internship

Ramayana has internship program for vocational school and university students. The Company also offers

various job positions for those with good performance during the program. Throughout 2018, the Company had 15,000 interns and another 10,000 from 228 vocational schools who study marketing.

Management Discussion and Analysis

The chapter is designed to help shareholders and stakeholders to get a clear picture of the Company's business and financial performance. This includes the latest update of the Company's current business development and what the future holds.

Economic Overview

Indonesia's economy remains strong with a burgeoning middle class and retail sector putting the country as Southeast Asia's largest market. The world's largest archipelago is poised to gain stronger purchasing power, especially among millennial generation.

According to The Invest ASEAN Digital Report, Indonesia's gross national income per capita has grown over 500% in a 17-year-period. The report also says that the economy is currently worth US\$ 900 billion per annum; and Indonesia is expected to account for nearly 40% of the growth among Southeast Asian countries by 2030.

Retail Market Overview

With stable economy and propitious outlook, the retail environment in Indonesia continues to evolve. Within the urban areas, the trends have been catalyzed particularly in the fashion industry.

With the raising of middle class and strengthening people's purchasing power, Ramayana has correspondingly set a significant milestone as the Company is currently capturing broader market.

One step taken is by collaborating with popular on-line platforms Lazada, Tokopedia and Shopee. Despite the growing number of netizens making the most of the

on-line shopping convenience, the world of retail still sees the majority of people enjoy more of experiencing physical shopping venues as having a break from the hustle and bustle of the busy life.

In corresponding with that, the Company has taken a step forward so as to strengthen its position as one of the largest department stores in Indonesia. Not only does the Company offer fashion products for middle-class and lower segments (C to D), but the Company has also taken a strategic transformation in building new version of Ramayana that captures higher-class segment (C to B). This has been demonstrated by the opening of Ramayana Prime, which offers a one-stop lifestyle and shopping destination.

RAMAYANA PRIME

Alluring One-Stop Shopping & Lifestyle Destination

It is undeniable that people are demanding more and more shopping excitement. In fact, malls around us have met people's needs, simply not only about fulfilling their needs of essential stuff. There has been a change around the way of how people go shopping. Instead, most of us may spend so much time not to purchase the essentials, but also worth to note that the current generation, especially millennials see hangouts as part of their lifestyle. This

has triggered Ramayana to transform into something completely different.

Ramayana, to the most of people, is best-known for its C & D market or mid-low segment, which is in fact just attractive to certain people. Ramayana sounds somewhat strange for millennials who demand for more fashionable and attractive shopping area, not a dull and old-fashioned shopping area. For that reason, Ramayana has altered and captured segmentation more widely, especially to boast its presence with more lifestyle products and services to allure millennials. This is where the birth of Ramayana Prime in City Plaza Jakarta has added to the Company's milestones.

Built on 1.1 hectares of land, with a building area of 25,906 m², Ramayana Prime in Jatinegara boasts the whole new shopping experience. Customers are spoiled with various fancy stores that are different from Ramayana commonly being perceived. Equipped with Cinema XXI, food connection and specialty store with renowned names such as Ace Hardware, Starbucks Coffee, HP Center, Shoe Mart, Sports Station and playing ground Zone 2000, Ramayana Prime truly has reckoned up so much sense of amusement in their latest one-stop shopping area.

Furthermore, Ramayana Prime takes into account the MSMEs by adding them into their shopping area. Ramayana Prime employs around 98 (ninety-eight) workers, which are prioritized to East Jakarta residents, and collaborates with UMKM Market Cooperatives so as to enhance

harmony in making the most of opportunities available from micro and small to large businesses.

By opening an outlet in class B mall, Ramayana managed to target the B segment market, so that sales after Lebaran at Ramayana Prime did not experience a significant decline. It can be seen from the consignment sales contribution in Ramayana Prime are larger than the other Ramayana outlets. Although the store area in Ramayana Prime is only around 4,500 - 5,000 sqm, the Company can use the space more effectively and efficiently with higher productivity targets

During 2018, 3 (three) Ramayana Prime have been opened, located in Cibubur, Sleman & Madiun, and according to the Company's business roadmap, more Ramayana Primes are set to be opened in the near future to satisfy the needs of the millennial generation, many of whom see such a shopping and lifestyle destination as Ramayana Prime essential to fulfill their lifestyle needs.

As of December 2018, there are 4 (four) fully operational Ramayana Prime, namely Jatinegara City Plaza,

Cibubur Plaza, Sleman City Hall, and Lawu Madiun Plaza with a total number of 301 workers.

FINANCIAL POSITION

Staying on track with the transformation as an engine that drives the Company forward, Ramayana has scaled greater heights with its business expansion with the opening of Ramayana Prime and the collaboration with e-commerce platforms while maintaining and enhancing the growth of the existing outlets across the archipelago.

Sales

In 2018, the Company managed to book total sales of Rp 8,539 billion, up from Rp 8,146 billion recorded in the previous year. The increase was due to the outstanding performance in both outright and consignment. In 2018 outright sales stood at Rp 4,805 billion, an increase of 0.4% from Rp 4,786 billion recorded in 2017. Meanwhile, consignment grew 11.1% in 2018.

The Company total revenue in 2018 stood at Rp 5,740 billion, up from Rp 5,623 billion.

Gross Profit

The Company booked an increase of 13.3% in gross profit at Rp 2,507 billion, compared to Rp 2,212 billion booked in the previous year.

The increase in gross profit was attributed to tremendous growth in fashion business and better gross margin achievement.

Operating Expenses

This category includes Selling Expenses, General & Administrative Expenses, and Other Expenses. Throughout 2018, the Company recorded Rp 1,899 billion of its operating expenses, an increase of 2.3%, from Rp 1,856 billion booked in 2017.

The increase in operating expense was due to renewal of existing rental contract and upgrading and renovation of the stores.

Income from Operations

Meanwhile, the Company's income from operations soared to Rp 606.9 billion from Rp 376.8 billion in the previous year. The 61.1% increase was due to tremendous growth in fashion department, higher gross margin, and better cost control.

STATEMENT OF FINANCIAL POSITION

Assets

As of December 31, 2018, total assets stood at Rp 5,243 billion as compared to Rp 4,892 billion booked in the previous year. This achievement was attributed to higher cash and cash equivalent.

Liabilities

The Company recorded its total liabilities at Rp 1,416 billion, up 1.3% compared to the previous year's figure of Rp 1,398 billion.

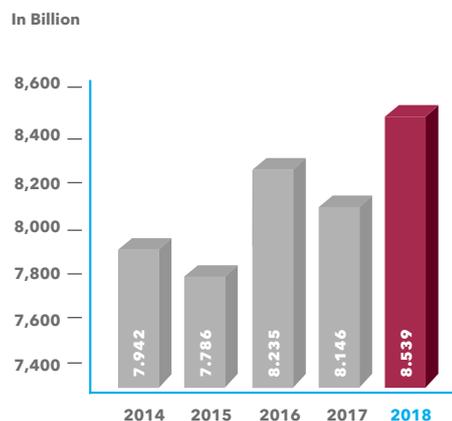

Equity

The Company's equity rose by 9.5% to Rp 3,827 billion from Rp 3,494 billion booked in the previous year.

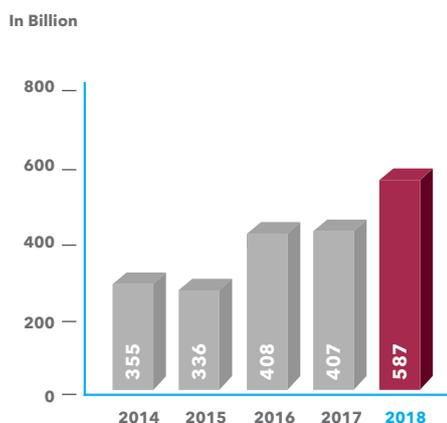

Dividends

The Annual General Shareholders Meeting which was held in Mercure Hotel, May 25, 2018 approved the distribution of cash dividend of Rp 268.9 billion or Rp 40 per share.

TABLE OF NET SALES

TABEL KEUNTUNGAN BERSIH

Corporate Governance

AYO GABUNG!

PT Ramayana Lestari Sentosa Tbk views that Corporate Governance is essential to maintain the sustainability of its business. It is the barometer and structure that set the objective of a company and its important elements to be incorporated into the company's organizational structure.

Good Corporate Governance (GCG)

With the sustainability at the core of what we do, the Company keeps striving to improve the practice of Good Corporate Governance (GCG). The Company also consistently executes its GCG practice in accordance with high standards of business conduct.

In implementing GCG principles, the Company refers to the following 5 (five) GCG principles:

- **Transparency**
The Company transparently provides accurate, clear, and other relevant material information about the Company's financial report and business activities.
- **Accountability**
The Company always ensures that all the decisions and actions are held accountable.
- **Responsibility**
The Company carries out its business activities in responsible manner and in accordance with the prevailing laws and regulations.
- **Independency**
The Company is professionally managed without any conflict of interest and pressure from any party which is not in accordance

with the prevailing laws and regulations as well as sound corporate principles.

- **Fairness**

The Company fulfills shareholders' rights based on the prevailing laws and regulations as well as acting fairly and equally.

General Meeting of Shareholders

The General Meeting of Shareholders (GMS) holds the highest authority in the Company, representing the interests of shareholders, which hold all authorities not given to the Board of Commissioners or the Board of Directors.

GMS is held at least once a year as a forum for the Company's Management and shareholders to take important decisions relating to business strategies and policies of a company.

Annual GMS

In 2018, the Company held its Annual General Meeting of Shareholders (GMS) on May 25, 2018 at Mercure Hotel, Jakarta.

The Annual Report, Financial Report, decision to distribute dividends, and total honorarium for the Board of Commissioners have been approved.

Board of Commissioners

The Board of Commissioners plays an important role in GCG implementation. The Board's oversight function is essential to ensure the run of the Company's daily routine. The working relationship between the Board of Commissioners and the Board of Directors is a check and balances in order to realize the Company's vision and mission.

Board of Commissioners Meetings

Meetings of the Board of Commissioners and joint meetings with the Board of Directors are held regularly. Throughout 2018, the Board of Commissioners held a meeting every 2 (two) months, which was attended by 90% of the Board of Commissioners. And every 4 (four) months the Board of Commissioners conduct a joint meeting with the Board of Directors.

Board of Commissioners Remuneration

Upon the approval of GMS on May 25, 2018, the total amount of remuneration received by all members of the Board of Commissioners in 2018 was Rp 6,943,076,570.

Board of Directors

The Board of Directors is the Company's essential organ and

responsible for the running of the Company, as well as representing the Company in accordance with the Company's Articles of Association.

Board of Directors Meetings

Throughout 2018, the Board of Directors conducted regular meetings every month attended by 93.3% of the Board of Directors.

Board of Directors Remuneration

Pursuant to the GMS approval held on May 25, 2018, the total amount of remuneration received by all members of the Board of Directors was Rp 5,645,931,404.

Audit Committee

The Audit Committee was formed to assist the Board of Commissioners in executing its oversight function. Headed by an Independent Commissioner, the Audit Committee is authorized to access to the Company's all information, provide independent analysis, monitor the examination process of financial reports by both internal and external auditors, and provide access to the internal audit function and audit findings.

The composition of the Audit Committee as of December 31, 2018 is as follows:

1. Chairman: Selamat (Independent Commissioner)
2. Members:
 - a. Ruddy Hermawan Wongso
 - b. Andreas Lesmana

Executive Committee

This Committee consists of the Directors of the Company and its subsidiaries as well as the General Managers of departments and business units. The Executive Committee holds meetings regularly to discuss various subjects that relate to the management of the Company and its subsidiaries. The discussion covers marketing, project development, financial reporting, and the improvement in which the Company is currently focused on, which is transformation.

Corporate Secretary

The Company's Corporate Secretary is appointed by and directly responsible to the Board of Directors to act as a liaison between the Board of Directors and the Board of Commissioners, Shareholders, the public and media. It is also the responsibility of the Corporate Secretary to ensure that the Company complies with prevailing laws and regulations of the capital market. Setyadi Surya currently holds the position of the Company's Corporate Secretary.

Internal Audit Unit

Pursuant to the GCG principles, the Internal Audit Unit is directly responsible to the President Director. In executing its functions, the Internal Audit Unit also collaborates with the Audit Committee as stipulated in the Internal Audit Charter. Following are the Internal Audit Unit's duties and responsibilities:

- Prepare and implement an Annual Internal Audit Plan.
- Examine and evaluate the implementation of internal control and risk management based on the Company's policy.
- Assess and examine the efficiency and effectiveness of finance, accounting, operation, human resources, marketing, information technology, and other functions.
- Provide advice for improvement and objective information on all audited activities, at all management levels.
- Prepare a report on audit findings and submit it to the President Director and the Board of Commissioners.
- Monitor, analyze and report the implementation of recommended actions.

The authorities of the Internal Audit Unit are to:

- Access all relevant information in regard to the Company.
- Communicate directly with the Board of Directors, Board of Commissioners, and/or Audit Committee.
- Hold regular and incidental meetings with the Board of Directors, Board of Commissioners and/or Audit Committee.
- Coordinate its activities with the external auditor.

Compliance Audit

The SOP compliance audit on all units implemented throughout 2018 includes: the handling of cash, promotions and Human Resources and loans.

Non Facility Management, which covers compliance audit in the implementation of Finance & Accounting SOP and Human Resources Department (HRD) SOP in all of Ramayana Group's business units, covers:

1. Finance & Accounting SOP:
 - a. Procedure for petty cash management.
 - b. Procedure for advance payment.
2. Human Resources Department SOP:
 - a. Procedure for medical reimbursement.
 - b. Procedure for operational vehicles.

The summary of the audit was to confirm that all of the business units had followed standard operating procedures.

RISK MANAGEMENT

The Company is implementing the precautionary and always maintains a high level of vigilance in the operations in order to minimize the potential risks that could occur. Risk management systems focused on the Company are:

1. Economic Risk

Economic risk includes a number of factors, such as fluctuations in the Rupiah exchange rate, interest rates and inflation. These factors have a significant impact on the Company's performance, specifically affecting the Company's outstanding loan position and purchasing power of target consumers. In turn, this exerts an effect on consumers' ability to purchase the products and services offered by the Company.

In order to minimize economic risk, Ramayana intensively monitors the economic condition and seeks professional opinions from competent sources. The Company is also naturally hedged against

currency fluctuations, through the US-Dollar denominated revenues from its businesses. No less important, the Company consistently matches the currency of the loans for project financing with that for project revenues.

2. Security Risks

Security is one of the key issues in any business. In the past, a number of security issues, particularly that of terrorism, have proven to be detrimental to Indonesia and to Ramayana's business activities.

As a preventive action, Ramayana has put in place a set of Standard Operating Procedures (SOP) to handle security problems and apply strict security standards in every field.

3. Business and Property Risks

As a company that owns various highly-valuable assets, Ramayana is also vulnerable to natural disasters and other adverse events, such as fires, earthquakes, floods and other business interruptions. In order to minimize such risks, all of the Company's properties are insured with coverage commensurate with the market values of the properties. All insurance policies were underwritten by the most trusted and reliable insurance brokers. The Company also implements a set of SOP to handle emergency events.

4. Competition Risks

The retail sector has witnessed increasingly aggressive business competition from small sellers, malls, kiosks and itinerant clothing merchants, targeting our market segments. Today retailers across the archipelago are faced with the same new threat as in western countries, as internet-based online shopping gathers momentum. Ramayana has attempted to ride this wave through cooperation with the

renowned online shopping platforms: Lazada, Tokopedia and Shopee.

Hence, the competition emerges in three forms: from competitors within the industry, from an oversupply of retail space, and from a rapidly growing online internet shopping platform. Suppliers attract customers by cutting prices and offering special promotions.

On-line offers unparalleled convenience, particularly when combined with the same day delivery service. Competitive product innovation remains a key option in the Company's business development activities, by featuring originality, uniqueness, and products of highest quality, as well as excellent service and complete supporting facilities that meet customer needs. Yet, the exciting novelty of online shopping will prove acutely disappointing for many consumers when they discover that they do not get what they thought they were buying, the quality varies dramatically, and complaints/refunds are slow and cumbersome, and the ostensible savings in time and expenses evaporates, when slow delivery disappoints.

5. Legal Risks

To establish or open a supermarket or department store, the Company must obtain a permit from the relevant agency, taking into account the government's role as a regulator of policy covering various social sectors, economic and cultural communities in the area. Therefore, the Company is always working with relevant local agencies and consistently meeting the legal requirements imposed by the Government.

Corporate Social Responsibility

The Company is aware of the importance of maintaining sustainable business activities. As a big organization, therefore, Ramayana puts sustainability as a top priority in every day business activities. We interpret sustainability as more than just creating monetary gain, but no less important is balancing the business growth with environmental stability and improvement in people's welfare.

To maintain our business sustainability, we carry out the essence of the triple bottom concept (Profit, Planet, People). In other words, we incorporate the concept into a number of development aspects, which are the Company's profit, protection and sustainability, and community welfare.

We also realize that Corporate Social Responsibility (CSR) is a manifestation where the synergy between CSR activities and business performance plays a vital role in achieving the Company's sustainable growth. The following are our CSR activities throughout 2018:

Helping Lombok

On August 9-10, 2018, we directly distributed all of the donations, valued at nearly Rp600 million consisting of 3,319 packages of daily staple, to the victims of earthquake in Lombok, West Nusa Tenggara.

Free Medical Treatment

In collaboration with 13 (thirteen) Buddhist Vihara in Cikarang and Karawang, the Company distributed as many as 3,100 coupons to the surrounding communities for free

medical treatment. The event was held at Sariputra school, Cikarang, on September 2, 2018. This social event was the 11th time being held with the total fund of Rp 961,431,300.

Social Activity for Earthquakes in Palu and Donggala

The earthquakes that hit Palu and Donggala urged us last October 2018 to send the donations to the victims of the natural disasters. The aid was in the form of daily staple valued at Rp 1,171,266,592.

Humanitarian Assistance for Tsunami Victims

We held a social activity to help the communities in Anyer and Lampung, as we channeled the donation for Rp 200 million for the community development purpose.

Audit Committee's Report

In order to establish the principles of Good Corporate Governance, the Company has established an Audit Committee, whose mandate it is to assist the Board in carrying out its duties and responsibilities with respect to business risk management and to the Company's internal control system.

In accordance with the regulations of the Financial Service Authority (OJK - previously known as Capital Market Supervisory Agency and Financial Institution - BAPEPAM & LK) and the Indonesia Stock Exchange, the Audit Committee has conducted several meetings, among others being those on March 19, 2017 to review the Company's financial statements ended December 31, 2018, May 11, 2018, August 9, 2018, and November 9, 2018 to review the Company's interim report. These meetings discussed the findings of and recommendations by the External Auditor, the Board of Directors, the Internal Auditor and the Corporate Secretary.

Disclosure obligations on the review by the Audit Committee of the Company's Annual Report - the following are our submissions:

- a. Selection of Certified Public Accountants for 2018, recommended by the Board of Directors, taking into account aspects of independence and competence, and approved by the Board of Commissioners, having received authority from the shareholders in a General Meeting of Shareholders held on May 25, 2018.
- b. The Company is run by an effective internal control system, which is being continually upgraded, in accordance with policies outlined by the Board of Directors and supervised by the Board of Commissioners.
- c. Financial statements have been prepared and well presented to meet general accounting principles as practiced in the Republic of Indonesia.
- d. The Company always adheres to the regulations of capital markets and to other laws relating to the activities of the Company.
- e. There has been no known potential for abuse or diversion which would require attention or the consideration of the Board of Commissioners.

Similarly, this Audit Committee report was presented. We thank the Board of Commissioners for their attention.

Independent Auditors' Report

Report No. 00308/2.1032/AU.1/05/1561-1/1/III/2019

The Shareholders, Boards of Commissioners and Directors PT Ramayana Lestari Sentosa Tbk

We have audited the accompanying financial statements of PT Ramayana Lestari Sentosa Tbk, which comprise the statement of financial position as of December 31, 2018, and the statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on such financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

This report is originally issued in the Indonesian language.

The establishment of the Company's Audit Committee has complied with OJK Rule No. IX.I.5.

The Company's key management consists of Boards of Commissioners and Directors.

As of December 31, 2018 and 2017, the Company has 7,734 and 9,352 employees, respectively (unaudited).

The Company's financial statements were completed and authorized for issuance by the Company's Board of Directors on March 27, 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of Compliance and Basis of Preparation of the Financial Statements

The financial statements have been prepared in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants and the Regulations and Guidelines on Financial Statement Presentation and Disclosures issued by OJK.

The financial statements have been prepared in accordance with Statement of Financial Accounting Standards ("PSAK") 1, "Presentation of Financial Statements".

The financial statements have been prepared on accrual basis and using the historical cost basis except as otherwise disclosed in the related notes herein.

The statement of cash flows present receipts and disbursements of cash and cash equivalents classified into operating, investing and financing activities, where the cash flows from operating activities are presented using the direct method.

The financial reporting period of the Company is January 1 - December 31.

The accounts included in the Company's financial statements are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Rupiah which is the functional currency of the Company.

All amounts in the financial statements are rounded to and presented in millions of Rupiah, unless otherwise stated.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand and in banks and time deposits with maturities of three (3) months or less at the time of placement, not pledged as collateral for loans and without restrictions in the usage.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand and in banks and time deposits as defined above, net of outstanding overdraft, if any.

c. Transactions with Related Parties

The Company has transactions with related parties as defined in PSAK 7.

Transactions with related parties are made based on terms agreed by the parties, which may not be the same as those of the transaction between unrelated parties.

All significant transactions and balances with related parties are disclosed in the relevant notes to the financial statements.

d. Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined by moving-average method which includes all costs that occur to get this inventories to the location and current conditions. Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated cost necessary to make the sale.

The Company provides allowance for obsolescence and/or decline in values of inventories based on periodic reviews of the physical condition and net realizable values of the inventories.

e. Fixed Assets

All fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent to initial recognition, fixed assets are carried at cost less any subsequent accumulated depreciation and impairment losses.

Depreciation of an asset starts when it is available for use and is computed using the straight-line method based on the estimated useful lives of the assets:

	Years
Buildings	10 - 20
Building renovations and improvements	4 - 8
Store equipment	4 - 8
Transportation equipment	4
Office equipment	4 - 8

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e. Fixed Assets (continued)

An item of fixed asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of profit or loss and other comprehensive income in the year the asset is derecognized.

The asset's residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively if appropriate, at each financial year end.

Lands are stated at cost and not depreciated.

Legal cost of land rights in the form of Business Usage Rights ("*Hak Guna Usaha*" or "HGU"), Building Usage Right ("*Hak Guna Bangunan*" or "HGB") and Usage Rights ("*Hak Pakai*" or "HP") when the land was acquired initially are recognized as part of the cost of the land under the "Fixed Assets" account and not amortized. Meanwhile the extension or the legal renewal costs of land rights in the form of HGU, HGB and HP were recognized as part of "Deferred Charges" account in the statement of financial position and were amortized over the shorter of the rights' legal life and land's economic life.

Repairs and maintenance are taken to the profit or loss when these are incurred. The cost of major renovation and restoration is included in the carrying amount of the related fixed asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Company, and is depreciated over the remaining useful life of the related asset.

Construction in Progress

Construction in progress is stated at cost and presented as part of the fixed assets. The accumulated costs will be reclassified to the appropriate fixed assets account when construction is substantially completed and the asset is ready for its intended use. Assets under construction are not depreciated as these are not yet available for use.

f. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequent to initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets comprising of application development, system development and computer software, include all direct costs related to preparation of the assets for their intended use, amortized using the straight-line method over 4 (four) years.

At each reporting date, the useful lives and amortization method are reviewed by the management of the Company, and adjusted prospectively, if appropriate.

(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g. Impairment of Non-Financial Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. A previously recognized impairment is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss is recognized. Where an impairment loss is subsequently reversed, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss and other comprehensive income.

h. Leases

The Company adopted PSAK 30, "Lease", when a lease includes both land and building elements, an entity should assess the classification of each element separately whether as a finance or an operating lease.

The Company classifies leases based on the extent to which risks and rewards incidental to the ownership of a leased asset are vested upon the lessor or the lessee, and the substance of the transaction rather than the form of the contract.

Finance Lease - as Lessee

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the leased assets. Such leases are capitalized at the inception of the lease at the fair value of the leased property or, if lower, at the present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of liability. Finance cost are charged directly to the current year operation.

If there is reasonable certainty that the lessee will obtain ownership by the end of the lease term, the leased asset is depreciated over the estimated useful lives of the assets. Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term. Any excess of sales proceeds over the carrying amount of an asset in a sale-and-leaseback transaction is deferred and amortized over the lease term.

Operating Lease - as Lessee

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of the leased asset. Accordingly, the related lease payments are recognized in profit or loss on a straight-line basis over the lease term.

Operating Lease - as Lessor

Leases where the Company does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i. Prepaid Expenses

Prepaid rent is amortized using the straight-line method over the rental period. The current portion of the prepaid rent to be charged to operation within one (1) year is presented as "Current Portion of Long-term Prepaid Rent - Net" account in the statement of financial position.

On the other hand, the long-term portion of prepaid rent is presented as "Long-term Prepaid Rent - Net of Current Portion and Impairment Loss - Net" account in the statement of financial position.

j. Financial Instruments

Financial Assets

The Company's financial assets include cash and cash equivalents, time deposits, accounts receivable - trade, accounts receivable - others, security deposits and other non-current assets, which are classified as loans and receivables, and short-term investments, which are classified as available-for-sale financial assets. Financial assets are initially recognized at fair value.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment, if any. The losses arising from impairment are recognized in the statement of profit or loss and other comprehensive income.

Available-for-sale ("AFS") financial assets

AFS financial assets are non-derivative financial assets that are designated as available-for-sale or those that are not classified as financial assets at fair value through statement of profit or loss and other comprehensive income, loans and receivables or held-to-maturity investments. After initial measurement, AFS financial assets are measured at fair value with unrealized gains or losses recognized in equity in the statement of financial position until the investment is derecognized. At that time, the cumulative gain or loss previously recognized in equity shall be reclassified to profit or loss as a reclassification adjustment.

Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Trade receivables are carried at original invoice amount net of allowance for impairment loss, if any. An estimate of allowance for impairment loss is made when there is objective evidence (such as probability of insolvency or significant financial difficulties of the debtor) that the Company will not be able to collect the receivables under the original terms of the invoice and is established through provisions charged to income. The outstanding balance of trade receivables is derecognized and written off against the allowance for impairment loss when assessed to be uncollectible.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

Financial Assets (continued)

Impairment of financial assets (continued)

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

Financial Liabilities

The Company's financial liabilities include trade payables, other payables and accrued expenses and are initially recognized at fair value, inclusive of directly attributable transaction costs.

Loans and borrowings

After initial recognition, loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the statement of profit or loss and other comprehensive income when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest amortization is included in finance costs in the statement of profit or loss and other comprehensive income.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset is derecognized when (i) the rights to receive cash flows from the asset expired, or (ii) the Company transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement, or (iii) the Company have transferred substantially all the risks and rewards of the asset, or have neither transferred nor retained substantially all the risks and rewards of the asset but have transferred the control of the asset.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

Derecognition of Financial Assets and Liabilities (continued)

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of profit or loss and other comprehensive income.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

k. Employee Benefits

The cost of providing benefits under the defined benefits plan is determined using the Projected Unit Credit method.

Re-measurements of the net defined benefit liability (asset), which are recognized as other comprehensive income, consists of:

- i. Actuarial gains and losses;
- ii. The return on plan assets, excluding the amounts included in net interest on the net defined benefit liability (asset); and
- iii. Any change in the effect of the asset ceiling, excluding the amounts included in net interest on the net defined benefit liability (asset).

Re-measurements of the net defined benefit liability (asset) recognized in other comprehensive income will not be reclassified to profit or loss in the next periods. Past service costs are recognized in profit or loss at the earlier of:

- i. The date of the plan amendment or curtailment; and
- ii. The date that the Company recognizes related restructuring costs.

Net interest is calculated by applying discount rate to the net defined benefit liability (asset). The Company recognizes the following changes in the net defined benefit obligation under "General and Administrative Expenses" in the statement of profit or loss and other comprehensive income:

- i. Service costs comprising current service costs, past-service costs and gains and losses on curtailments; and
- ii. Net interest expense or income.

Gains or losses on the curtailment or settlement of a defined benefit plan are recognized when the curtailment or settlement occurs.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

k. Employee Benefits (continued)

A curtailment occurs when an entity either:

- i. Is demonstrably committed to make a significant reduction in the number of employees covered by a plan; or
- ii. Amends the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits, or will qualify only for reduced benefits.

A settlement occurs when the Company enters into a transaction that eliminates all further legal or constructive obligation for part or all of the benefits provided under a defined benefit plan.

l. Additional Paid-in Capital - Net

Additional paid-in capital - net represents the difference between the offering price and the par value of share capital, net of share issuance costs and additional paid-in capital in relation with tax amnesty program.

m. Foreign Currency Transactions and Balances

The Company considers the primary indicators and other indicators in determining its functional currency, if indicators are mixed and the functional currency is not obvious, management uses its judgements to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

Transactions involving foreign currencies are recorded in Rupiah amounts at the rates of exchange prevailing at the time the transactions are made. At the reporting date, monetary assets and liabilities denominated in foreign currency are adjusted to Rupiah by taking the average of transaction exchange rate by Bank Indonesia as of December 31, 2018 and 2017. Resulting gains or losses are credited or charged to operations of the current year.

As of December 31, 2018 and 2017, the exchange rates used are as follows (full amount):

	<u>December 31, 2018</u>	<u>December 31, 2017</u>
United States Dollar	14,481	13,548
Singapore Dollar	10,603	10,134

n. Recognition of Revenues and Expenses

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Sales is recognized when goods are delivered to customers net of returns and discounts allowed. Revenue from services is recognized when services are rendered to customers. Net revenue represent sales of products, including the amortization of deferred income from the contract for promotional activities, net of returns and discounts allowed. Revenues from outright and consignment sales are recognized when the goods are sold at the sales counter. Commission on consignment sales are recognized as the amount of the sales of consignment goods to customers less the related costs, which are recognized as amount due to consignors.

Expenses are recognized as incurred.

NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

o. Taxation

Final Tax

Tax regulation in Indonesia determined that certain taxable income is subject to final tax. Final tax applied to the gross value of transactions is applied even when the parties carrying the transaction recognizing losses.

Referring to revised PSAK 46 as mentioned above, final tax is no longer governed by PSAK 46.

The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset, except for certain asset such as land, which realization is taxed with final tax on gross value of transaction.

Current Tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authority.

Current tax expense is determined based on the taxable profit for the year computed using the prevailing tax rates.

Underpayment/overpayment of income tax are presented as part of "Income Tax Expense - Current" in the statements of profit or loss and other comprehensive income. The Company also presented interest/penalty, if any, as part of "Income Tax Expense - Current".

Amendments to tax obligations are recorded when a tax assessment letter is received or, if appealed against, when the result of the appeal is determined.

Deferred Tax

Deferred tax assets and liabilities are recognized using the liability method for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in the financial statements and their respective tax bases at each reporting date. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences and accumulated fiscal losses to the extent that it is probable that taxable profit will be available in future years against which the deductible temporary differences and accumulated fiscal losses can be utilized.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized. At the end of each reporting period, the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax assets to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

p. Segment Reporting

A segment is a distinguishable component of the Company that is engaged either in providing certain products (business segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment. They are determined before intra-group balances and intra-group transactions are eliminated.

q. Earnings per Share (“EPS”)

Earnings per share is computed based on the weighted average number of issued and fully paid shares during the year.

The weighted-average number of shares outstanding for 2018 and 2017 are 6,722,818,900 shares, respectively.

r. Treasury Shares

Repurchase of equity instruments (treasury shares) are recognized at reacquisition cost and deducted from equity. No gain or loss is recognized in profit or loss on the acquisition, resale, issuance or cancellation of the Company's equity instrument. The difference between the carrying amount and the consideration, if reissued, is recognized as part of additional paid-in capital in the equity.

s. Provisions

Provisions are recognized when the Company have a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

t. Accounting Standards Issued but not yet Effective

The following are several issued accounting standards by the Indonesian Financial Accounting Standards Board (“DSAK”) that are considered relevant to the financial reporting of the Company but not yet effective for 2018 financial statements:

- i. PSAK 71: Financial Instruments, adopted from IFRS 9, effective January 1, 2020 with earlier application is permitted.

This PSAK provides for classification and measurement of financial instruments based on the characteristics of contractual cash flows and business model of the entity; expected credit loss impairment model that resulting information more timely, relevant and understandable to users of financial statements; accounting for hedging that reflect the entity's risk management better by introduce a more general requirements based on management's judgment.

(Expressed in Millions of Rupiah, Unless Otherwise Stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

t. Accounting Standards Issued but not yet Effective (continued)

The following are several issued accounting standards by the Indonesian Financial Accounting Standards Board ("DSAK") that are considered relevant to the financial reporting of the Company but not yet effective for 2018 financial statements: (continued)

- ii. PSAK 72: Revenue from Contracts with Customers, adopted from IFRS 15, effective January 1, 2020 with earlier application is permitted.

This PSAK is a single standards that a joint project between the International Accounting Standards Board ("IASB") and the Financial Accounting Standards Board ("FASB"), provides revenue recognition from contracts with customers, and the entity is expected to have analyzing before recognizing the revenue.

- iii. PSAK 73: Leases, adopted from IFRS 16, effective January 1, 2020 with earlier application is permitted, but not before an entity applies PSAK 72: Revenue from Contracts with Customers

This PSAK establish the principles of recognition, measurement, presentation, and disclosure of the lease by introducing a single accounting model, with the requirement to recognize the right-of-use assets and liability of the lease; there are 2 optional exclusions in the recognition of the lease assets and liabilities: (i) short-term lease and (ii) lease with low-value underlying assets.

At the issuance of these financial statements, the Company is still evaluating the potential impact of these new and revised standards to the Company's financial statements.

3. SOURCE OF ESTIMATION UNCERTAINTY

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amounts of the assets and liabilities affected in future periods.

Judgments

The following judgments are made by management in the process of applying the Company's accounting policies that have the most significant effects on the amounts recognized in the Company's financial statements:

Leases

The Company has several leases whereas the Company act as lessee in respect of rental of land and spaces for warehouses and stores. The Company evaluates whether significant risks and rewards of ownership of the leased assets are transferred based on PSAK 30, "Leases", which requires the Company to make judgment and estimates of the transfer of risks and rewards related to the ownership of asset. Based on the review performed by the Company for the current rental agreement, accordingly, the rent transactions were classified as operating lease.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

3. SOURCE OF ESTIMATION UNCERTAINTY (continued)

Judgments (continued)

The following judgments are made by management in the process of applying the Company's accounting policies that have the most significant effects on the amounts recognized in the Company's financial statements: (continued)

Leases (continued)

The Company entered into agreement where the Company acts as lessor to rent space at the stores. The Company has determined, based on evaluating term and condition of agreements, that all risks and rewards of ownership of the rented space at the store are not transferred, accordingly the Company records the rent transaction as operating lease.

Determination of Functional Currency

The Company's functional currency is the currency from the primary economic environment where the Company conducts business. The functional currency is the currency that has impact on revenue and expenses from product given.

Classification of Financial Assets and Financial Liabilities

The Company determines the classification of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Company's accounting policies disclosed in Note 2j.

Allowance for Impairment of Trade Receivables

The Company evaluates specific accounts where it has information that certain customers are unable to meet their financial obligations. In these cases, the Company uses judgment, based on the best available facts and circumstances, including but not limited to the length of its relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce its receivable amounts that the Company expects to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the amounts of allowance for impairment of trade receivables.

These specific allowance are re-evaluated and adjusted as additional information received affects the amounts of allowance for impairment of trade receivable. As of December 31, 2018 and 2017, the Company's management believes that all trade receivables are collectible and therefore no allowance for impairment loss is needed. Further details on trade receivables are disclosed in Note 6.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

3. SOURCE OF ESTIMATION UNCERTAINTY (continued)

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed below. The Company based its assumptions and estimates on parameters available when the Company's financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Impairment of Non-financial Assets

An impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing the asset. In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the specific risks to the asset.

In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used to determine the fair value of the assets. These calculations are corroborated by valuation multiples or other available fair value indicators. The value in use calculation is based on a discounted cash flow model. The future cash flow projection is for a period of ten years and does not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

Management believes that there is no event or change in circumstances that may indicate any impairment in the value of its non-financial assets as of December 31, 2018 and 2017.

Employee Benefits

The measurement of the Company's obligations and cost for pension and liabilities for employee benefits is dependent on its selection of certain assumptions used by the independent actuaries in calculating such amounts. Those assumptions include among others, discount rates, future annual salary increase, annual employee turn-over rate, disability rate, retirement age and mortality rate. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the financial position through other comprehensive income the period in which they occur.

While the Company believes that its assumptions are reasonable and appropriate, significant differences in the Company's actual experiences or significant changes in the Company's assumptions may materially affect its estimated liabilities for pension and employee benefits and net employee benefits expense. Further details on employee benefits are disclosed in Note 14.

3. SOURCE OF ESTIMATION UNCERTAINTY (continued)

Estimates and Assumptions (continued)

Depreciation of Fixed Assets and Amortization of Intangible Assets

The costs of fixed assets are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these fixed assets to be within 4 to 20 years. These are common life expectancies applied in the industry where the Company conducts its business. Further details are disclosed in Note 9.

The costs of intangible asset are amortized on a straight-line basis over their estimated useful lives within 4 years. These are common life expectancies applied in the industry where the Company conducts its business.

Income Tax

The Company recognizes liabilities for corporate income tax based on estimation of whether additional corporate income tax will be due. Further details are disclosed in Note 12.

Deferred Tax Assets

The Company reviews the carrying amounts of deferred tax assets at the end of each reporting period and reduces these to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized.

The Company's assessment on the recognition of deferred tax assets on deductible temporary differences is based on the level and timing of forecasted taxable income of the subsequent reporting periods. This forecast is based on the Company's past results and future expectations on revenues and expenses as well as future tax planning strategies. However, there is no assurance that the Company will generate sufficient taxable income to allow all or part of the deferred tax assets to be utilized. Further details are disclosed in Note 12.

Allowance for Obsolescence and Decline in Value of Inventories

Allowance for obsolescence and decline in value of inventories is estimated based on the best available facts and circumstances, including but not limited to, the inventories' own physical conditions, their market selling prices and estimated costs to sell. The allowance are re-evaluated and adjusted as additional information received affects the amount estimated. Further details are disclosed in Note 8.

Uncertain Tax Exposure

In certain circumstances, the Company may not able to determine the exact amount of current or future tax liabilities due to possibility of examination by the taxation authority. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. In determining the amount to be recognized in respect of an uncertain tax liability, the Company applies similar considerations as it would use in determining the amount of a provision to be recognized in accordance with PSAK 57, "Provisions, Contingent Liabilities and Contingent Assets". The Company analyzes all tax positions related to income taxes to determine if a tax liability for unrecognized tax expense should be recognized.

Financial Instruments

The Company records certain financial assets and liabilities at fair values, which requires the use of accounting estimates. While significant components of fair value measurement were determined using verifiable objective evidences, the amount of changes in fair values would differ if the Company utilized different valuation methodology. Any changes in fair values of these financial assets and liabilities would affect directly to the Company's profit or loss.

8. INVENTORIES

This account represents merchandise inventories owned by the Company which are located in the following regions:

	<u>December 31, 2018</u>	<u>December 31, 2017</u>
West Java	249,043	225,732
Jakarta	198,108	173,887
Sumatera	139,867	120,553
East Java	69,741	52,799
Kalimantan	65,066	51,329
Bali and Nusa Tenggara	42,768	38,920
Central Java	42,413	26,128
Papua	26,390	21,177
Sulawesi	26,371	30,468
Total (Note 18)	<u>859,767</u>	<u>740,993</u>

The above inventories are covered by insurance against losses from fire, damage, natural disasters, riots and other risks amounting to Rp1,240,078 as of December 31, 2018 (2017: Rp704,047), which in the opinion of the Company's management is adequate to cover possible losses arising from such risks. As of December 31, 2018 and 2017, there are no inventories pledged as collateral.

Based on the review of the condition of inventories at the end of the year, management assesses that there are no indications for decline in value for above inventories.

In 2018, there was earthquake disaster in one of the Company's store that resulted losses on inventories, long-term prepaid rent, fixed assets and security deposits each amounting to Rp8,780, Rp4,026 (Note 10c), Rp1,712 (Note 9) and Rp185, respectively. For the losses of inventories and fixed assets, the Company is still in the process for submission of the insurance claims, which compensation still could not be determined.

In 2017, there was fire accident in one of the Company's store that resulted in losses on inventories amounting to Rp7,124 and fixed assets amounting to Rp419 (Note 9), respectively. In 2018, for the losses of inventories and fixed assets, the Company has received compensation from insurance claim amounting to Rp5,450.

In 2017, the Company also has received reimbursement from insurance claim amounting to Rp18,965 for losses of inventories and fixed assets incurred in 2016 and 2015.

The net gain from these fire incidents in 2018 and 2017 amounting to Rp5,450 and Rp11,422, respectively, which were recorded as part of "Other Income" in the statement of profit or loss and other comprehensive income (Note 21).

9. FIXED ASSETS - NET (continued)

Depreciation charged to general and administrative expenses were amounting to Rp175,362 in 2018 and Rp183,684 in 2017 (Note 20).

The computation of gain on disposal of fixed assets are as follows:

	Year Ended December 31,	
	2018	2017
Proceeds from sales	441	992
Net book value	(167)	-
Gain on disposal of fixed assets	274	992

Gain on disposal of fixed assets is presented as part of "Other Income - Others - Net". In 2018 and 2017, the Company has written off fixed asset and construction in progress amounting to Rp1,496 and Rp67, respectively.

In 2018, there was earthquake disaster in one of the Company's stores which resulting the Company suffered a loss on fixed assets amounting to Rp1,712 (Note 8). As a result of fire disaster in the Company's stores in 2017, the Company suffered a loss on fixed assets amounting to Rp419 (Note 8).

Land under Building Usage Right ("HGB") status owned by the Company is located in several cities in Indonesia. These HGBs will expire on various dates from 2019 until 2040 and the Company's management believes that these rights can be renewed upon their expiry.

Fair value of land as of December 31, 2018 and 2017 are amounting to Rp758,739 and Rp727,093, which were determined based on the Tax Office's sale value of tax objects ("NJOP").

The details of constructions in progress are as follows:

December 31, 2018	Estimated Percentage of Completion from Financial Point of View	Accumulated Costs	Estimated Completion
Building renovations and improvements	10-90%	51,320	Year 2019
Store and office equipments	10-90%	18,892	Year 2019
Total		70,212	

December 31, 2017	Estimated Percentage of Completion from Financial Point of View	Accumulated Costs	Estimated Completion
Building renovations and improvements	10-90%	54,004	Year 2018
Store and office equipments	10-90%	19,175	Year 2018
Total		73,179	

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

9. FIXED ASSETS - NET (continued)

Fixed assets, except for land and construction in progress, are covered by insurance against losses from fire, damage, natural disasters, riots and other risks amounting to Rp2,552,152 and Rp2,476,134 as of December 31, 2018 and 2017, respectively, which in the management's opinion is adequate to cover possible losses arising from such risks.

As of December 31, 2018 and 2017, the Company's management believes that there is no event or change in circumstances that may indicate any impairment in value of its fixed assets.

As of December 31, 2018 and 2017, there were no fixed assets pledged as collateral.

14. LIABILITIES FOR EMPLOYEE BENEFITS

The Company recognized liabilities for employee benefits as of December 31, 2018 and 2017 based on actuarial valuations performed by PT Dayamandiri Dharmakonsilindo, an independent actuary, based on its reports dated March 4, 2019.

The liabilities for employee benefits are calculated using the "Projected Unit Credit" method based on the following assumptions:

	December 31, 2018	December 31, 2017
Discount rate	8.30% per year	7.30% per year
Salary increase rate	7% per year	7% per year
Pension age	55 years old	55 years old
Mortality rate	TMI 2011	TMI 2011

The benefits expense are as follows:

	Year Ended December 31,	
	2018	2017
Excess of benefits payments	46,636	27,304
Current service cost	22,363	20,351
Interest cost	21,960	23,439
Adjustment for past services	281	546
Past service cost of curtailment	(26,792)	-
Total	64,448	71,640

Movements in the present value of defined benefit obligation as of December 31, 2018 and 2017 are as follows:

	Year Ended December 31,	
	2018	2017
Balance at beginning of year	348,937	300,629
Provision of excess benefit payment	46,636	27,304
Current service cost	22,363	20,351
Interest cost	21,960	23,439
Adjustment for past services	281	546
Benefits payments during the year	(18,156)	(11,560)
Past service cost of curtailment	(26,792)	-
Excess of benefits payments during the year	(46,636)	(27,304)
Remeasurement of present value of defined benefit obligation:		
Loss (gain) from experience adjustments	12,382	(20,026)
Loss (gain) from changes in financial assumption	(38,488)	35,558
Balance at end of year	322,487	348,937

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

14. LIABILITIES FOR EMPLOYEE BENEFITS (continued)

The movements in the liabilities for employee benefits for the years ended December 31, 2018 and 2017 are as follows:

	Year Ended December 31,	
	2018	2017
Balance at beginning of year	348,937	300,629
Provision during the year	64,448	71,640
Payment during the year	(18,156)	(11,560)
Provision of excess benefit payment	(46,636)	(27,304)
Other comprehensive loss (income)	(26,106)	15,532
Balance at end of year	322,487	348,937

Mutation of other comprehensive loss for the years ended December 31, 2018 and 2017 are as follows:

	Year Ended December 31,	
	2018	2017
Balance at beginning of year	77,754	62,222
Loss (gain) in current year	(26,106)	15,532
Balance at end of year	51,648	77,754

As of December 31, 2018, a one percentage point change in the assumed rate of discount rate would have the following effects:

	Discount rates		Future salary increases	
	Percentage	Effect on present value of benefits obligation	Percentage	Effect on present value of benefits obligation
Increase	1%	(25,099)	1%	29,882
Decrease	(1%)	28,820	(1%)	(26,409)

The following payments are expected contributions to the benefit obligation in future years:

	December 31, 2018	December 31, 2017
Within the next 12 months	45,649	42,651
Between 1 and 2 years	15,956	12,349
Between 2 and 5 years	53,893	48,911
Beyond 5 years	410,022	523,126
Total	525,520	627,037

26. MONETARY ASSETS AND LIABILITIES IN FOREIGN CURRENCIES

As of December 31, 2018, the Company has monetary assets and liabilities denominated in foreign currencies as follows:

	Equivalent in Rupiah
Assets	
Cash and cash equivalents	
United States Dollar (US\$9,769,717)	141,476
Time deposits	
United States Dollar (US\$2,538,228)	36,756
Accounts receivable - others	
United States Dollar (US\$25,759)	373
Total	178,605
Liabilities	
Accounts payable - others	
United States Dollar (US\$92,663)	1,342
Singapore Dollar (Sin\$4,808)	51
Total	1,393
Net monetary assets	177,212

On March 27, 2019, the exchange rates are Rp14,202 (full amount) per US\$1 and Rp10,492 (full amount) per Sin\$1.

If the net monetary assets in foreign currencies as of December 31, 2018 are converted to Rupiah using the exchange rates as of March 27, 2019, the net monetary assets will decrease by Rp3,415.

27. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Company's main financial instruments comprise cash and cash equivalents, time deposits, short-term investments, accounts receivable - trade, accounts receivable - others, certain security deposits, other non-current assets, accounts payable - trade, accounts payable - others and accrued expenses.

a. Risk Management

The Company is exposed to market risk, credit risk and liquidity risk. Interest to manage any kind of risks has been significantly increased by considering the volatility of financial market both, in Indonesia and international. The Company's senior management oversees the risk management of these risks.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise two type of risks: interest rate risk and foreign currency risk. Financial instruments affected by market risk include cash and cash equivalents, time deposits, short-term investments, accounts receivable - others and accounts payable - others.

(Expressed in Millions of Rupiah, Unless Otherwise Stated)

27. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES (continued)

a. Risk Management (continued)

Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates is related primarily to cash and cash equivalents, time deposits, short-term investments, accounts receivable - others and accounts payable - others which are denominated in United States Dollar and Singapore Dollar. The Company manages this risk by placing their investment selectively in financial instruments which provide high return on investment, so that the fluctuation of foreign exchange rate can be compensated with the return on investments which are denominated in several foreign currencies.

The following table demonstrates the sensitivity to a reasonably possible change in the Rupiah exchange rate against foreign currencies, with assumption that all other variables held constant, the effect to the income before corporate income tax expense is as follows:

	December 31, 2018		December 31, 2017	
	Change in Rupiah Rate	Effect on Income Before Tax Expenses	Change in Rupiah Rate	Effect on Income Before Tax Expenses
United States Dollar	+2%	3,545	+2%	3,256
Singapore Dollar	+2%	(1)	+2%	(1)
United States Dollar	-2%	(3,545)	-2%	(3,256)
Singapore Dollar	-2%	1	-2%	1

Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company's financial instruments that have potential credit risk consist of cash and cash equivalents, time deposits, accounts receivable - trade, accounts receivables - others, certain security deposits and short-term investments. Other than as disclosed below, the Company has no concentration of credit risk.

Credit risk arising from placements of current accounts and deposits is managed in accordance with the Company's policy. Investments of surplus funds are limited for each banks or financial institution and reviewed annually by the Board of Directors. Such limits are set to minimize the concentration of credit risk and therefore mitigate financial loss through potential failure of the banks.

At the reporting date, the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets presented in the statement of financial position.

27. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES (continued)

a. Risk Management (continued)

Liquidity risk

Liquidity risk is the risk that occurs when the cash flows position indicates that short-term revenue is insufficient to cover short-term expenditure.

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents and marketable securities to enable the Company fulfill the Company's commitments to support the Company's business activities. In addition, the Company continuously controls the projection and actual cash flows and also controls the maturity of financial assets and liabilities.

The tables below summarizes the maturity profile of the Company's financial liabilities based on contractual payments as of December 31, 2018 and 2017:

	<u>< 1 year</u>	<u>1 - 2 years</u>	<u>2 - 3 years</u>	<u>> 3 years</u>	<u>Total</u>
As of December 31, 2018					
Accounts payable - third parties					
Trade	909,334	-	-	-	909,334
Others	31,468	-	-	-	31,468
Accrued expenses	55,193	-	-	-	55,193
Total	995,995	-	-	-	995,995
As of December 31, 2017					
Accounts payable - third parties					
Trade	949,543	-	-	-	949,543
Others	6,878	-	-	-	6,878
Accrued expenses	43,528	-	-	-	43,528
Total	999,949	-	-	-	999,949

The table below summarizes the changes in liabilities arising from financing activity:

	For the Year Ended December 31, 2018			
	<u>Beginning Balance</u>	<u>Addition</u>	<u>Cash Flow - Net</u>	<u>Ending Balance</u>
Cash dividend	-	268,913	(268,913)	-
For the Year Ended December 31, 2017				
	<u>Beginning Balance</u>	<u>Addition</u>	<u>Cash Flow - Net</u>	<u>Ending Balance</u>
Cash dividend	-	242,021	(242,021)	-

27. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES (continued)

b. Capital Management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value.

In addition, the Company is also required by the Corporate Law effective August 16, 2007 to contribute and to maintain a non-distributable reserve fund until the said reserve reaches 20% of the issued and fully paid share capital. This externally imposed capital requirement is considered by the Company at the Annual General Shareholders' Meeting ("AGSM").

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, issue new shares or raise debt financing. No changes were made in the objectives, policies or processes for the years ended December 31, 2018 and 2017.

The Company's policy is to maintain a healthy capital structure in order to secure access to finance at a reasonable cost.

28. FINANCIAL INSTRUMENTS

As of December 31, 2018 and 2017, the carrying amounts of financial assets and liabilities approximate their fair value as follows:

1. Cash and cash equivalents, time deposits, accounts receivable - trade and accounts receivable - others.

All of the above financial assets represent current assets which due within twelve (12) months, thus the carrying values of the financial assets approximate their fair values.

2. Accounts payable - trade, accounts payable - others and accrued expenses.

All of the above financial liabilities represent current liabilities which due within twelve (12) months, thus the carrying values of the financial liabilities approximate their fair values.

3. Security deposits, employee receivables, including their current maturities.

Long-term assets which bear no interest are presented at the net present value of the estimated future cash receipts or payments using market interest rate available for debt with approximately similar characteristics.

Short-term investments

Fair value of this financial asset is estimated using appropriate valuation techniques with market observable inputs.

PT RAMAYANA LESTARI SENTOSA Tbk
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2018 and for the Year Then Ended
(Expressed in Millions of Rupiah, Unless Otherwise Stated)

28. FINANCIAL INSTRUMENTS (continued)

Fair Value Hierarchy

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The assessment of the significance of a particular input to the fair value measurements requires judgement, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis.

If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, the Company calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on any available observable market data.

The Company's fair value hierarchy as of December 31, 2018 and 2017 are as follows:

		December 31, 2018			
		Total	Level 1	Level 2	Level 3
Current asset					
Short-term investments		86,068	86,068	-	-
		=====	=====	=====	=====
		December 31, 2017			
		Total	Level 1	Level 2	Level 3
Current asset					
Short-term investments		127,509	127,509	-	-
		=====	=====	=====	=====

For the years ended and December 31, 2018 and 2017, there were no transfers between each level fair value measurements.
