- Market leader in soft lines with strong house brands / private labels, strong relationship with suppliers with contract manufacturing resulting in 'value for money' price points.
- Up-to-date fashion trend and fast fashion strategy to ensure and attract strong customer following.
- Central buying for all soft lines and non food items. All food items are purchased and controlled regionally.
- Uniform one price policy for all products with the exception of variable pricing in locations with higher distribution cost and near monopoly trading conditions.

## Highlights / Problems

- A mild sign of recovery of export sector in commodities has not yet translated into strong sales performance.
- Down sizing supermarket store size to optimize productivity level.
- Reorganize tenant mix of a bigger outlet to promote concept of life style mall with more F\&B tenants, cinema, and specialty shop within shop, in order to increase traffic into store and to attract a slightly higher customer segment.
